

OUTDOOR LEARNING *Advent Calendar*

For activity inspiration throughout December, please visit

www.facebook.com/TEPOutdoorLearning

How to make the Advent Calendar

1. You will need A4 card/thick paper, printer, ruler, scissors/craft knife, surface to cut on and glue
2. Print both pages on card (ideally)
3. On page one, use the ruler to help you cut along three sides of each square. The fourth side will be the "hinge" to open the door
4. Stick page one (making sure not to glue the doors) to page two to complete the calendar!

Take a photograph of your favourite local natural area

Make a rain gauge and record rain fall for the rest of December

Learn how to tie at least one knot, such as a Reef Knot or Clove Hitch

Build a den for yourself either indoors or outdoors

Make some bird or animal food for your outdoor space

Create a piece of art, from nature, in the style of Andy Goldsworthy

Read and review a book that talks about adventures outdoors

Register for the 2021 RSPB Birdwatch (which takes place in January)

Ride a bike or go for a nature walk in your local area

Make some bark rubbings and/or leaf prints to turn into wrapping paper

Build an animal den or bug hotel

Learn about a type of code, such as Morse, & send a message to a friend

Make a poster highlighting the benefits of learning outdoors

Ask your parent/carer to take a photo of you camouflaged in nature

Predict the weather using clouds

Make your own boat, for the bath

Design a cycling top for children in the UK

Conduct a wintry science experiment at home

Collect some sticks then design and make a sculpture

Take the What 3 Words quiz and create your own map

Watch and review a film that celebrates the outdoors

Design and make some frozen bird feeders

Tidy your garden or outside area

Make a table decoration using nature items

Go for a walk with your family

Don't forget to share any completed activities with us.
