

OUTDOOR LEARNING

Activities for December

Take a photograph of your favourite local natural area

Make a rain gauge and record rain fall for the rest of December

Learn how to tie at least one knot, such as a Reef Knot or Clove Hitch

Build a den for yourself either indoors or outdoors

Make some bird or animal food for your outdoor space

Create a piece of art, from nature, in the style of Andy Goldsworthy

Read and review a book that talks about adventures outdoors

Register for the 2021 RSPB Birdwatch (which takes place in January)

Ride a bike or go for a nature walk in your local area

Make some bark rubbings and/or leaf prints to turn into wrapping paper

Build an animal den or bug hotel

Learn about a type of code, such as Morse, & send a message to a friend

Make a poster highlighting the benefits of learning outdoors

Ask your parent/carer to take a photo of you camouflaged in nature

Predict the weather using clouds

Make your own boat, for the bath

Design a cycling top for children in the UK

Conduct a wintry science experiment at home

Collect some sticks then design and make a sculpture

Take the What 3 Words quiz and create your own map

Watch and review a film that celebrates the outdoors

Design and make some frozen bird feeders

Tidy your garden or outside area

Make a table decoration using nature items

Go for a walk with your family
