**PEOPLE**

# Primary Schools Training Package

## Introduction

We are delighted to launch our new **Primary Schools Training Package**. This will enable you and your staff to attend as many of our primary school improvement online training courses as you like for a **fixed cost** – no additional charges and **no limits on the number of attendees** from your school!

With **over 150 courses** on offer across a wide range of topics and designed for staff members at all levels, we are confident that this bundle offer will save you £££s from your annual CPD budget. What's more, as all of these courses are brought to you by The Education People, you can rest assured that they are of the **highest quality**; developed and delivered by national and internationally-renowned education experts.

On the following pages are a sample of the courses on offer, with details of the pricing schedule so you can calculate how much you can save. **Register your interest** today to ensure your staff have access to the highest quality professional development at a fraction of the cost!

James Roberts  
CEO, The Education People

## Teaching and Learning

Our courses aim to support, develop and challenge teachers throughout their career. From carefully crafted programmes for early career teachers and those returning to teaching, to focussed training on specific areas of pedagogy for more experienced practitioners, all training is based around relevant and robust research. Our courses are designed to encourage all delegates to reflect on and refine their current practice wherever they are on their career pathway, giving confidence to embed research-based approaches into their classrooms.

### A sample of our teaching and learning courses:

Great Teaching for Inexperienced Teachers and Returners

How to Assess Reading in the Primary School

Managing Behaviour Effectively

Creating an All-inclusive Classroom

Gauging Understanding and Identifying Misconceptions

Marking and Feedback

Retrieval Practice and Sticky Knowledge

Key Stage 1 Writing Workshop Using the Teacher Assessment Framework

## Leadership and Management

We offer a wide range of leadership and management training courses to nurture, support and develop leaders with different levels of experience and expertise. For early career teachers aspiring to leadership, we offer a preparation for leadership course which will equip them with ideas, strategies and skills to take on a first leadership role within their schools. Our popular 'Substance of Leadership' series enables senior leaders to develop their expertise and drive effective and sustained improvement in their schools. For headteachers we provide training on key leadership responsibilities, such as self-evaluation and school improvement planning. We offer subject-specific and generic courses for middle leaders to support them in the pivotal role they play in school improvement. Our leadership and management training is grounded in research, responsive to the changing educational landscape and national context, and includes suggestions and resources to improve efficiency and effectiveness.

### Here are some of our leadership and management courses on offer:

Developing Effective School Self Evaluation

Effective Monitoring and Evaluation Practice for All Middle Leaders - Aligned to the New Inspection Framework

Ofsted Ready for Small Primary Schools

Looking Forward to Leadership

Ofsted Ready - Getting It Right for History and Geography

Middle Leaders: 'New to Maths Subject Leadership'

How to Monitor Primary Science Using a Deep Dive Approach

## Subject-specific Training Courses in English and Mathematics

Our English and mathematics subject advisers provide a wealth of subject-specific training courses and networking sessions to support curriculum development and subject-based pedagogy in these core areas. Suitable for classroom teachers, middle leaders, teaching assistants and support staff, our experts can help guide and develop your practice to secure better outcomes for your students.

### Some of the sessions on offer:

Fluency in Reading at Key Stage 2

Teaching Phonics Effectively

Effective Editing and Redrafting of Writing

Building the Vocabulary of the Key Stage 1 Writer

Challenging KS1 Mathematicians to Work at Greater Depth

Developing Conceptual Fluency Using Knowledge Organisers

Understanding the New EYFS Framework for Maths: What's All This About 'Subitising'?

## TEP Talks

Our newly introduced TEP Talks are proving to be hugely popular. Led by leading national and international speakers, these half-termly live webinars are focussed upon current educational priorities and provide a unique opportunity for teachers and leaders to connect with leading educational experts as they share ideas and provide insight on how to close the gaps in pupil learning and improve educational outcomes. Highly active and thought-provoking, these sessions enable delegates to discuss and engage speakers with meaningful Q&As.

### Recent speakers have included:

Marc Rowland - Putting Your Energy into the Provision for the Forgotten Third

Professor Daniel Muijs - Using Relevant Research and Evidence to Inform Practice in School

Professor Teresa Cremin - Reading for Pleasure - Building Communities of Readers

Mark Anderson - Research-informed Approach to the Successful Use of Technology to Support Remote Education

Alex Quigley - Closing the Reading Gap

Ian Gilbert - Navigation vs Knowledge - Thinking and Learning in a Post COVID World

Mary Myatt - The Curriculum as a Story.

## The Catch-up Curriculum Toolkit

Having missed many months of formal face to face teaching due to COVID-19, some pupils will have lost more learning time than others and fallen behind their peers. To address this challenge and ensure that pupils recover from this sustained period of interrupted learning, we have developed a package of resources to include webinars (accompanied by train the trainer slides) and downloadable resources. Delivered and developed by internationally-renowned speakers and our own in-house experts, these resources have supported teachers with their recovery curricula, enabling students to re-connect, restore and recover.

**Some of the webinars in the series have included:**

Understanding Formative Assessment

The Place of Representation and Structure in Supporting Closing Gaps

Growing Metacognitive Learners in Primary Maths and English

Oracy Rescue 2020

Phonics Rescue 2020

Professor Dylan Williams - Embedding Formative Assessment

Harry Fletcher-Wood - Hinge Questions

Shirley Clarke - The Power of Feedback

Barry Hymer - The Role of Children's Motivation in Formative Assessment

## Teaching Assistants and Support Staff

At The Education People we provide a wide range of quality assured training courses, resources and E-learning modules for support staff that work with children. All our training and development is drawn from current best practice and research to help you to improve your knowledge whilst also providing practical strategies and ideas that you can take back into school and implement immediately.

## E-learning

Written by our Primary School Improvement Advisers, our E-learning courses cover English, maths and assessment for teachers and teaching assistants. A number of the modules have also been accredited by CPD UK.

### There are many advantages of E-learning:

Convenient and flexible access – courses can be accessed anytime from a mobile device, laptop, tablet or desktop.

Serves different learning styles – videos, text, infographics, quizzes and case studies mean that learners can be engaged throughout.

Independent learning at your own pace, better retention of subject through interactive content.

### Courses include:

Teaching Essentials: Connect the Dots Between Evidence-based Research and Classroom Practice

Module 1: Cultivating a Growth Mindset Class

Module 2: Developing Your Behaviour Management Toolbox

Module 3: Establishing a Positive Class Climate

Module 4: Questioning to Promote Talk and Thinking

Module 5: Unpacking Learning Objectives and Success Criteria

Developing Number Sense Through the Use of Manipulatives in KS1

Effective Formative Assessment

Developing Fluency in Multiplication Facts

Basic Phonics Skills for Teaching Assistants

Module 1 – An introduction to Teaching and Learning for Teaching Assistants

Effective Questioning for Teaching Assistants

Behaviour Training for Teaching Assistants

Manipulatives for Teaching Assistants.
